

STATE COMMITTEES

We have eight different committees that are looking for folks to assist within that particular area. The following is a list of committees, a brief about what they are and their chairmen and how to contact them.

By-Laws Committee: The by-laws of the Constitution Party of Ohio need to be corrected and updated. These By-Laws were patterned after the By-Laws of Illinois and some items that have been left in are not applicable to Ohio. There are some items that need to be further defined such as membership/dues and the incorporation of the committees and their functions/definitions. If you have a penchant for rules and regulations this would be the committee for you.

Platform Committee: Currently, the Constitution Party of Ohio does not have an official platform. Right now, all we have is a pledge that, "We will adhere, in principle, to the Constitution Party Platform." The Constitution Party Platform is probably why most of us decided that this was the party for us. I know it is for me. It will be the platform that defines who we are and what will attract the people who are sick and tired of "two winged bird, flying in the wrong direction."

Public Relations (PR) Committee: All official correspondence to the public will be filtered through this committee. Templates regarding certain issues will be created that can be used by party members to personalize and send to "Letters to the editor". It will be their responsibility to figure ways to get the Constitution Party before the people of Ohio, so that they will know that there is an alternative to the "two headed beast." Also, scheduling Public events such as debates and dinners for the purpose of fund raising and party awareness will be done through this committee. This will be a huge endeavor and is probably one of the most important things that we will be doing as a party to get people to know we are here.

Finance Committee: Are there any number crunchers out there? A budget is needed to be created. Also, the financial laws of the state need to be understood and applied to how we manage our party finances.

Election Committee: It will be the job of the election committee to become intimately familiar with the state and county election codes. It will be the election committee's responsibility to qualify candidates for endorsement by the Constitution Party. The training and support of candidates (Coordinated through the Training Committee) will come through this committee. Time is upon us and it is time to start screening candidates.

Membership Committee: All membership issues will be tracked through this committee, to include maintaining the records of all memberships, creating and distributing membership packets. This committee will be responsible for creating membership drives.

Training Committee: The first responsibility of this committee will be to teach Party members issues of constitutionality. Then the Constitution Party of Ohio will sponsor community training for the purpose of educating the public on how the Constitutional Table Cloth is being pulled out from underneath them.

Political Action Committee: This committee would be responsible for sending the word out regarding certain legislation and other issues that we as concerned citizens need to take action on. I understand that the other political parties have lobbyists; from this committee would come our lobbyists. Also, one of the important goals of this committee will be to create alliances with other political action organizations such as Pro-Life organizations, Pro-Family organizations, Pro-Second Amendment organizations etc... It will be another way to get the Constitution Party name before the people and to build important bridges that will help us to restore our state and federal governments back to their constitutional roots.
